AN INCIDENT OF THE BULL RUN BATTLE .- A private letter from a young soldier in Com-any F, 11th Mass. Regiment, who was in the Bull Ron battle, relates the following instance of the bravery of one of the New York Fire

It tell you of the noble bravery of one of th's Zouaves. He had been shot in and the ball had severed an artery. It was ther we had made the second charge upon the battery, and I had lost my gun, which had been knocked from my hands by a cannon profitted. ball, and I was now in the rear of the company when I saw the Zouave creeping toward me. I held him up, and, facing him round toward the dream, steadied his arm while he fired six shots from his revolver at them. I then helped him down the hill toward the hospital, a short distance, when he asked me to examine his side, as he felt a pain there. BEARP SHOOTERS .- The Rutland Herald says that some fifty applications have been made for enlistment into the company of sharp shooters at the Rutland station.

Trial shots were made Monday the 19th inst. and for two or three days afterwards, on grounds north of the burying yard in that village. Preparations have been made for a grand trial next Saturday at the same place, and we shall expect some tall shooting if the day is favorable. A strong wind has prevailed each day that trials have been made, but notwithstanding the unfavorable circumstances, some excellent shots have been made, pears from the targets. Mr. J. J. Bailey atland has done the best as yet. He hit rget on a windy day, each ten consecutive shots, and made a string of twenty-two and one kelf inches at two hundred yards. Two of the shots hit the bull's eye. Horace C. Green of Middletown made a string of forty-four and one-fourth inches. H. T. Peck of Ira made a torative can be had."

A CANADIAN REMEDY

For Costiveness, Irregula, ay and Debu of the Digestive Organs, Inducing Headache, assi-tude, Nervousness, General Prostration of the Mind and Body, Paralysis, &c.

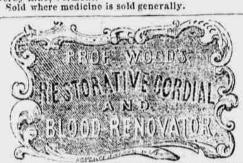

A moment's reflection ought to convince a sensible man of the folly and danger of constantly dosing with Cathartic Medicines. The practice is pernicious and suicidal. An experience of forty years has taught me that the constantly increasing evils of indigestion are fearfully aggravated by the too free use of Cathartics. The American people are fast becoming a nation of dyspeptics by their artificial modes of life. Drastic Cathartics increase the irritability, and prostrate the strength of the digestive organs.

tics by their artificial modes of life. Drastic Cathartics increase the irritability, and prostrate the strength of the digestive organs.

The Pills now offered are especially designed to allay this irritability, and at the same time to invigorate and strengthen all the functions of digestion, while they are gently laxative. They are anodyne, tonic and laxative. They are so mild and invigorating that one is not reminded by any disagreeable effects that he has taken medicine. Business Men. Students, Professional Men, Females, and all persons leading a confined or sedentary life, should try them.

The undersigned Physicians, cheerfully certify to the high professional standing of Dr. Colby of Stanstead, one of the oldest and best Physicians, and to the excellent qualities of his "Anti-Costive and Tonic Pills," which we have used in our practice, and highly approve.

Is precisely what its norme indicates, for while pleasant to the faste, it is revivifying, exhilarating and strengthening the vital powers. It also revivifies, reinstates and remess the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly as to act in perfect accordance with the laws of nature, and hence soothe the weakest Stomach and tone up the digestive organs, and allay all nervous and other fritation. It is also perfectly exhilarating in its effects and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughy combining powerful tonic and soothing propertiees, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks arising from Missmatic Influences, and cure the diseases at once, if already attack ed. And as it acts directly and persistently upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infalliby prevent any deliterious consequences following upon chang of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating. And all ladies not accustomed to much out door exercise should always use it. If they will they will find an agree able, pleasant, and efficient remedy against those fills which rob them of their beauty; for beauty cannot exist without health and health cannot exist while the above irregularities continue.
